

The logo for RSS-Hydro features a stylized circular emblem composed of three overlapping, curved segments in shades of light blue and purple, resembling a wave or a globe.

RSS-Hydro

Innovative Geospatial Services for a Sustainable Future

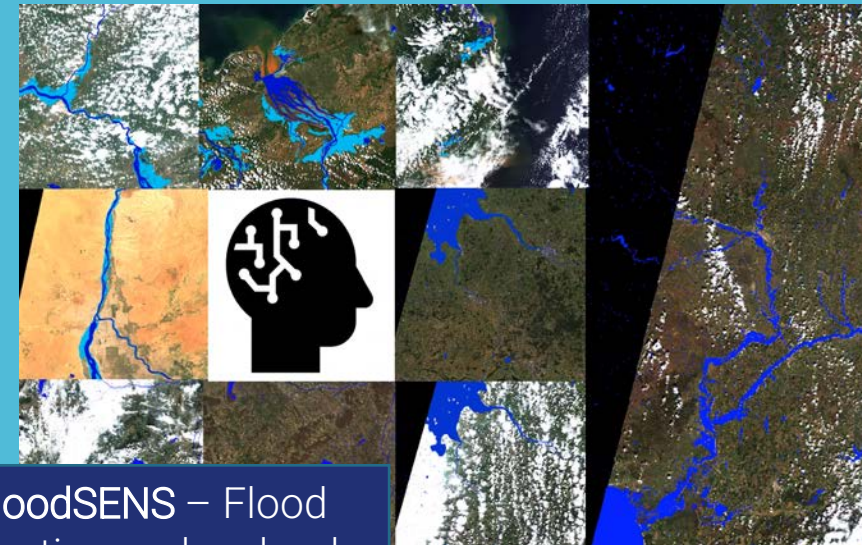

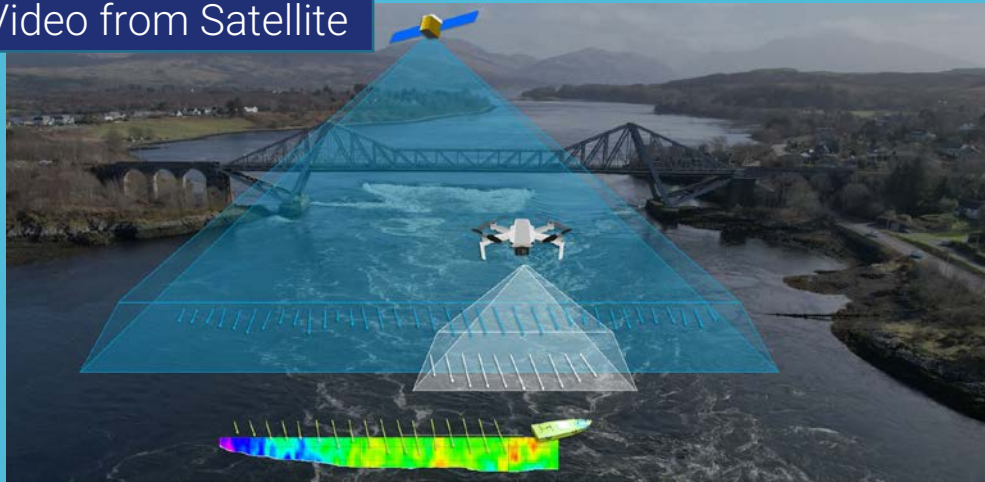

Our Core Business

Earth Observation projects

Our Research and Education Department (RED) is a Government-accredited private research institute

FluViSat - Fluvial Video from Satellite

FloodSENS – Flood detection under clouds

We work with graduate students, PhD candidates and postdoctoral researchers to inspire new generations, constantly promoting innovation in the fields of Earth Observation and water-related risks
